

"The Governor clearly has no concept about the training and readiness needs of our combat forces. By signing H.B. 1317, a bill that blocks the Army's ability to expand training areas, the Governor has sent a very clear message that the men and women who serve our nation in uniform are not welcome here.

I think he would be more sympathetic if the U.S. Army were to declare itself a terrorist organization - since he is going out of his way to block the Army while at the same time laying out a welcome mat to house terrorists from Guantanamo Bay."
